

LG6250E HYDRAULIC EXCAVATOR PARTS CATALOG

SHANDONG LINGONG CONSTRUCTION MACHINERY CO.,LTD.

Spare parts and services

For the owner of the machines of SDLG, only the spare parts and services of SDLG can make your machine to better maintain the original features.

Only SDLG is able to provide you with the perfect match of pure quality spare parts for your machine and knowledge of professional maintenance staff. Only in this way it can ensure sustainable high productivity and longer service life.

FOREWORD

This parts catalog of LG6250E hydraulic excavator is made for the convenience of users to use, repair and maintain the machine, which can be referred in the process of using. It can also help the users to be familiar with the structure and assembly relation of the machine. Parts of the engine are showed in details in its structure handbook, which are no longer contained in the catalog.

The catalog identifies drawings and assembly relations of different parts according to the system. Components which can not be taken apart, such as welding parts or riveted assemblies, are marked only by their code without the list of their consisting parts. The list in the catalog is arranged in Chinese and English.

This catalog is based on the LG6250E standard product, which can be a reference for the other nonstandard products, for more information, please consult SDLG, the local dealer or LinGong website. With the advancement of technology, we will keep on improving the product, so some content in the catalog may be inconsistent with the future products, which will not notice the users. When ordering the spare parts, please refer to the electronic system of parts catalog and be kindly inform us the manufacturing date and serial number of the machine.
